Summary

Versatile Full Stack Developer with 1 year of experience building and maintaining scalable ReactJS-based web applications. Proficient in JavaScript, UI/UX Design, and responsive web development. Skilled in RESTful API integration, performance optimization, SDLC, Agile methodologies, and version control using Git/GitHub. Adept at solving problems, collaborating in cross-functional teams, and delivering user-centric solutions aligned with industry best practices.

Education

Full Stack Development Bootcamp   2023 – 2024
Intensive training in full stack development   *Bangalore, IND*
BCA   2020 – 2023
ALPHONSA ARTS AND SIENCE COLLEGE   *Sulthan Bathery, IND*
HIGHER SECONDARY   2016 – 2018
GHSS NEERVARAM   *Wayanad , Kerala*

Experience

Full Stack Developer   2024 – Present
Brototype, Bengaluru

- Built responsive web applications using ReactJS, JavaScript, HTML, and CSS
- Implemented RESTful APIs using Node.js and Express for seamless integration
- Participated in Agile team sprints and utilized Git/GitHub for version control
- Conducted software manual testing and debugging to ensure production quality
- Focused on front-end performance optimization and cross-browser compatibility

College Project: Real Estate Management

Personal Project

- Developed a real estate management platform similar to OLX but focused on real estate listings
- Implemented user authentication, property listings, and search functionalities
- Integrated payment gateways and real-time chat features for user interaction
- Ensured a responsive design for optimal performance across devices
- Collaborated with team members to deliver a fully functional application

E-commerce Platform

Personal Project

- Designed and developed a full-stack e-commerce platform with ReactJS frontend and Node.js backend
- Implemented product catalog, shopping cart, and secure payment processing features
- Created responsive UI design ensuring optimal user experience across all devices
- Integrated authentication system with different user roles and permissions
- Utilized RESTful APIs for efficient data exchange between frontend and backend

Technical Skills

Frontend: ReactJS, JavaScript, HTML, CSS, UI/UX Design
Backend: Node.js, Express
Version Control: Git, GitHub
Testing: Manual Testing
Workflow: SDLC, Agile Methodology
Tools: GitHub, Adobe Creative Suite, RESTful APIs

Core Competencies

Responsive Web Design & Optimization: Building tailored web applications optimized for all devices
Software Development Lifecycle (SDLC): Managing complete development process from concept to deployment
Cross-functional Team Collaboration: Working effectively with diverse team members
Presentation & Communication Skills: Clearly communicating technical concepts to stakeholders
Problem-solving & Debugging: Quickly identifying and resolving complex technical issues
Business Travel Readiness: Available for travel as required for project needs
